

I am writing regarding the LPFM station issue. The radio station I primarily listen to is a national radio station, K-LOVE. Based on my understanding of the issue, it is being considered to give LPFM stations priority over national stations such as K-LOVE. I am in opposition to this since K-LOVE provides encouragement and hope to people over the radio. Most other radio stations just play popular music and commercials. K-LOVE seeks to provide meaningful news and encouragement to people without paid advertisements.
